

Lois Jean Brady, Director

Lois Jean Brady, a practicing Speech-language Pathologist, Assistive Technology and Certified Autism Specialist has over 25 years of experience. Her hands-on experience and research have given her solid base of knowledge upon which she drew to write Apps for Autism, Animal Assisted Therapy, and the Speech in Action Series. In addition, she has produced, Autism TodayTV, an award winning public broadcast show and newspaper focusing on providing valuable information to parents and educators. As an Assistive Technology Specialist she has created apps, InnerVoice, VAST-Autism/PreSpeech that significantly improves communication for individuals on the autism spectrum.

Career accomplishments include: Winner of three assistive technology Hack-a-thons, Benjamin Franklin Award for Apps for Autism and an Ursula Award for Autism TodayTV. She has won private and government grants to research and develop InnerVoice Autism Language & Literacy App. Lois is a member of the Board of Advisors for the International Board of Credentialing and Continuing Education Standards and gives international presentations to both family members and fellow professionals at conventions and seminars on autism and technology

Lois is also registered in Animal Assisted Therapy. Buttercup, her potbelly pig, frequently accompanies Lois in therapy sessions and is a huge motivator for all.
